## AGT Waterproof Scale

DEM designs, manufactures and supplies a complete range of bespoke and off-the-shelf weighing equipment. This is one of DEM's most popular off-the-shelf ranges. The AGT series are competitively priced for an IP 68 Rated Bench Scale.

The whole construction is stainless steel, and it incorporates an internal rechargeable battery and a mains lead which can be stored inside of the scale.

It has a bright red LED front and rear display for easy Readability and features a full range tare, basic parts counting facility and a hi/low check weight facility.

These scales are used by some of the largest meat processing plants in Ireland and the UK. The fact that they are battery operated, portable and compact sees them as a useful asset to any food processing plant.

### Features:

- Compact
